

## Modular *space-in-space* solution

Flexbox: The perfect solution for Activity Based Working in the modern open-space office. Completely transparent and lockable. It is a modular, functional space-in-space solution for informal chats, phone calls, work that requires concentration and meetings.

Flexbox  
Ahrend Loungescape

Designer: Basten Leijh

### **An acoustic solution**

Thanks to its special acoustic panels, the Flexbox not only absorbs and insulates sound for the occupants, it also absorbs surrounding sound for the workplace.

- › Tested by Peutz Acoustic laboratory
- › Special upholstery for additional acoustic effectiveness

### **Using the Flexbox you can simply and easily create a space within a space**

The creative and flexible design and the modular elements mean that a wide range of sizes are available, from a small call box to a spacious conference room. And the choice of colours and upholstery is also very extensive. As both form and function can be easily adapted using the same components, the Flexbox also caters perfectly to the ever-changing needs of its users. It is a sustainable solution that was designed with smart and easy reuse in mind.

- › Not fastened to the floor and can be placed anywhere in a space.
- › 100% Plug & Play: Electrified, data traffic and air treatment come as a standard

*"The Flexbox links seamlessly with the Ahrend Loungescape range. Thanks to the modularity of both ranges there are a limitless number of set-ups available. The combination is perfect for Smart Working."*

Flexbox](http://www.ahrend.com/Flexbox)

### Creative and sustainable

- › Dutch design and made completely in the Netherlands
- › Designed according to circular principles, with only sustainable materials used so that the components have a long lifespan
- › The design perfectly complements Ahrend Loungescape, allowing you to create an interior that has a leisurely look
- › Facilitates solutions for personal comfort that encourage healthy, creative and productive working

### Flexible and easy to customize

- › Flexbox is a 100% modular program wherein all components can be re-used in other Flexbox solutions
- › Extremely easy to assemble and disassemble on-site The modular system can be extended through the addition of upholstered panels and/or glass walls
- › Extensive choice of colours and upholstery
- › Can be flexibly extended in stages from 0.8 m wide to a maximum of 22 m<sup>2</sup>

### An all-in solution

- › It fulfils an acoustic purpose both in the Flexbox and for the space in which it is located
- › 100% Plug & Play: Electrified, data traffic and air treatment come as a standard
- › Additional options such as video screens / TV arm's, lighting from Intra Light and LEDS C4, fire alarms, sprinkler systems, air-conditioning and various ventilation solutions make the FlexBox complete

Ahrend. A Cradle to Cradle company  
Creating safe products and healthy environments

Ahrend is the sector's most sustainable company in Europe and has set itself the goal of closing the full production cycle and climate-neutral manufacturing by 2020, using the principles of Eco Design and Cradle to Cradle. The efficient use (and reuse) of materials is the central focus of this goal.
