

# Horizont

This desk works in all situations and environments.  
The almost endless configuration options make  
this system a universal building block for architects  
and interior designers.

Horizont offers several options for cable management, all of which are concealed under the desktops to ensure that no cables interfere with the important tasks at hand. With its slightly slimmer profile, Horizont provides a new aesthetic option for managing your office tasks and utilising your space.

# Horiz

Function, aesthetics, simplicity and flexibility are essential elements in the contemporary workplace, and are all reflected in the Horizont desk system. Horizont can blend into any environment and is now our best selling desk. It is a universal system popular with architects and designers for its ability to match and enhance their creativeness.

Doosan Babcock, a producer of boilers for the power generation industry, took delivery of 340 Horizont workstations along with storage products and custom furniture
