HANDBOOK

Soft Seating

Úvod

Základní informace

Kolekce nízkého sezení vychází z řady realizovaných interiérových projektů a nabízí různá řešení, která se vyznačují inovativním komfortem, ergonomií, pohodlím, příjemným designem i materiály. Nabízí řešení pro nejrůznější potřeby. Ať už se jedná o kanceláře, hotely, nemocnice nebo jakékoli jiné prostory, samozřejmě i pro váš domov.

Půvab, krása, odolnost a všestranná použitelnost jsou slova, která nejlépe vystihují kolekci židlí, křesel a pohovek (sofa) z naší nabídky. Při tvorbě jejich koncepce designěři vždy v první řadě mysleli na kvalitu a funkčnost.

Produkty jsou koncipovány tak, že je možné je upravit podle konkrétních požadavků zákazníka. I v případě objednávek větších objemů jsme schopni rychle a efektivně zohlednit a realizovat vaše speciální potřeby.

Technická specifikace

Jedná se o kolekci nízkého sezení od židlí, křesel, dvou či více místných sofa až po kolekci konferenčních stolků. Z velké části se jedná o skořepinovou kostru, udávající pevnost, doplněnou PUR pěnovou formou, která produktu propůjčuje měkkost, tvar a pohodlí. Čalounění v různých kategoriích a barvách textilií či kůže přináší rozmanitost. Vedle barevnosti jsou na výběr různé podnože pro židle a některá křesla, např. čtyřramenné nebo pětiramenné kříže s kolečky či kluzáky, kruhové základny, u kterých je možnost i výškové stavitelnosti. Dále jsou v nabídce podnože čtyřnohé kónické, čtyřnohé klasické nebo lyžinové. Některé řady nabízejí variantu s područkami či bez nich. Křesla a sofa mají své řady s konstrukcí dřevěnou nebo kovovou lakovanou s možností osazení kolečky. U některých typů sofa je zdůrazněný design tvarovou nerezovou podnoží a područkami. V současné době používáme 1 typ koleček, která jsou určena pro tvrdou podlahu, ale jsou použitelná i pro koberce.

Uživatelské parametry

Produkty vyhovují více než 90 % uživatelů od výšky 150 cm do 190 cm a tělesné hmotnosti od 60 kg do 110 kg.

Hmotnost

Hmotnosti jsou uvedeny u konkrétních produktů.

Dodací lhůta

Šest týdnů od objednání s dopravou do skladu expedice v TECHO, V Chotejně 1, Praha 10.

Ceny produktů

- Katalogové položky: Pořizovací cena BU = objednávací cena + doprava (15 %) + expedice (6 %)
- Nestandardní položky (jednobarevné provedení potahu): Pořizovací cena BU = objednávací cena + doprava (15 %) + expedice (10 %)
- Nestandardní položky (dvoubarevné provedení potahu): Pořizovací cena BU = objednávací cena + 3 % + doprava (15 %) + expedice (10 %)
- Nestandardní položky (tříbarevné provedení potahu): Pořizovací cena BU = objednávací cena + 6 % + doprava (15 %) + expedice (10 %)

Potahové látky

Skupina sedacího nábytku Soft Seating zahrnuje mnoho produktových řad, jež jsou dodávány v šesti kategoriích potahových látek – Group A, Group B, Group C, Group D, Group E, Group F. Každá kategorie se dále dělí na typové řady, které nabízejí různé barevné odstíny.

Typy podnoží

Barevné varianty Soft seating

Variety uvedeny na konci HB. Standardní provedení dřevěných částí – Natural; standardní provedení kovových částí – povrchová úprava chrom (v případech, kde je nabízena pouze úprava práškovou barvou, je standardní provedení v odstínu RAL9016 Mat White). V případě objednávání jiné možné barevné varianty dřevěných a kovových částí (případně použití speciálního stehování) je nutné v oddělení nákupu vyžádat založení nestandardní položky. Barva kovových částí není až na výjimky (stolky) součástí konfigurátoru pro automatické zakládání položek. Položky v technické příručce jsou vzorové, vytvořené pro všechny produkty v dodávaných kategoriích látek. Při objednávání v IS AXIS zadáte číslo položky konkrétního vybraného produktu a v okénku s označením skupiny potahové látky vyberete odpovídající kód barevného provedení. Systém poté založí novou jedinečnou položku a do názvu doplní označení druhu vybrané látky z dané kategorie. Tato nová položka již obsahuje veškeré informace o daném produktu, tzn. cenu, zařazení do kategorie, hmotnost apod.

Na konci technické příručky jsou uvedeny všechny vzorníky odpovídající nabídce.

Pro běžné čištění a údržbu pravidelně vysávejte vysavačem. V případě potřeby čistěte hadříkem navlhčeným vodou. Vylité tekutiny všeho druhu je nutné ihned vysušit.

Soft Seating

Introduction

Basic information

The TECHO soft seating collection been devised taking into account our extensive experience in interior furnishing projects. It offers flexible solutions characterised by innovative comfort, ergonomics, and pleasing visual design and materials. The seating range suits a wide range of requirements from offices and hotels to hospitals and, of course, the home.

The range of chairs, sofas and armchairs can best be summed up with the words charm, beauty, durability and versatility of use. When creating the concept for this range the overriding goals were quality and functionality.

The products are conceived such that it is possible to modify them according to the customer's requirements. Even in the case of large volume orders we are able to quickly and effectively assess and incorporate your special requirements.

Technical specification

This is a soft seating collection comprising chairs, armchairs, sofas and matching low tables. Most of the products have a plywood frame providing necessary strength on which is affixed moulded PUR cushioning that provides the necessary softness, form and comfort. Upholstery in a selection of categories and colours of fabric or leather increases the variability of the range. In addition to colour variability, the seating is also available in a choice of bases for chars and some of the armchairs, for example four or five-arm base with castors or glides, circular base and the option of height adjustability. Also available are four-legs conical, four legs standard and sled bases. Some models are offered with or without armrests. Models of armchairs and sofas are designed with wood or metal bases with the option of castors. Some types of sofa have an accentuated design feature in the form of a shaped stainless steel base and armrests. At the moment we use 1 type of castor which is for Hard Floor but it can also work for carpet floors.

User parameters

The products have been designed to suit over 90% of the adult population, being ideal for those between the heights of 150 cm to 190 cm and body weight from 60 kg to 110 kg.

Weight

Weights are given for the individual products.

Lead time

Available ex-works 6 weeks from ordering at the TECHO despatch stores, V Chotejně 1, Prague 10.

Product prices

- Standard items: Purchase price BU = order price + transport (15%) + dispatch department (6%)
- Nonstandard items (one type of fabric): Purchase price BU = order price + transport (15%) + dispatch department (10%)
- Nonstandard items (two types of fabrics): Purchase price BU = order price + 3% + transport (15%) + dispatch department (10%)
- Nonstandard items (three types of fabrics): Purchase price BU = order price + 6% + transport (15%) + dispatch department (10%)

Upholstery fabrics

The Soft Seating product range includes product models supplied in six categories of upholstery fabric – Group A, Group B, Group C, Group D, Group E, Group F. Each category is further subdivided into colour shades.

Base types

Wire frame

4 legs conical base

tube 4 legs base

4 star base

R50 plate

Colour options Soft Seating

Variations are shown at the end of the handbook. Standard design of wooden parts – Natural; standard design of metal parts – surface finish chromium (if only the powder coating is offered the standard color tone is RAL9016 Mat White). In case of ordering different color variant for wooden and metal parts (eventually usage of special stitching) it is necessary to make an establishing request of a non-standard item at the Purchase Department. Metal parts color is not included, with exceptions of tables, in the configurator for automatic item establishment. Items in technical manual are exemplary created for all products in supplied fabric categories. In the process of ordering in IS AXIS insert an item number of a concrete selected product and in the window marked as covering fabric and select corresponding color design code. The system then establishes a new unique item and supplements its name with selected type of fabric from a given category. This new item already includes all information about the product e.g. price, category, weight, etc.

At the end of the technical manual you will find the colour sample sheets.

Regular cleaning with a vacuum cleaner is recommended. When required use a clean damp cloth. Any liquids that are spilt should be wiped up immediately.

System for ordering Loca: The straight Loca seats are easily specified by length. For curved Loca seats you must specify the type (concave x convex); you measure the ARC length through the middle of the seat.

Note: You can draw any length or curve and the supplier will adapt production of Loca to your specification. Send your drawing, preferably an Autocad file, along with your order.

Divina 3 / Divina Melange 2 / Divina MD

Divina upholstery family is available in sophisticated and rich colours. Thanks to its smooth and consistent surface, it complements the shape of furniture very well. This fabric family is quite suitable for soft seating for both contract and private use and fabrics complement each other perfectly. The colour concept of Divina family is designed to capture all shades of oil paintings. As the fabrics show off the colours in all their glory, a dramatic and dynamic atmosphere can be created within the overall furniture scheme.

Main Line Flax

Main Line Flax

Main Line Flax is the natural progression of our all-time favourite Main Line Plus fabric, building on our industry leading bast fibre expertise to create a new inherently flame retardant fabric from sustainable sources. A symbol of purity, wild flax has been used in textiles for thousands of years thanks to its strong, long and smooth fibres found inside the stem of the plant. The fibre is spun into a 70-30 wool flax blend, then fibre dyed to create beautiful mixture yarns which are woven into interesting solids and cross-colours inspired by the rich tones of rare jewels.

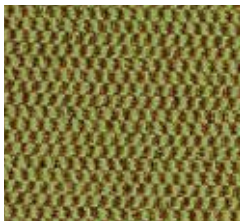

Composition: 70% Virgin Wool, 30% Flax

Width	140 cm minimum
Weight	435 g/m ² ±5% (610 g/lin.m ±5%)

Remix

Remix is a woolen upholstery fabric made from thin and strong wool. The yarns used in Remix create threads consisting of three different colours and for each colourway, two different threads are used. This combination creates a unique affect where the colours play across the surface of the fabric. The colour range spreads from bright colours to natural shades of earth tones.

Composition: 90% New Wool, 10% Nylon

Yarn type	Staple, worsted

Steelcut and Steelcut Trio

Steelcut 2 and Steelcut Trio 2 have the same construction featuring an innovative weave which creates a three-dimensional surface resembling steel points. This complex weave gives the fabric a simple and precise expression.

Steelcut 2 and Steelcut Trio 2 complete each other perfectly in terms of color options. While Steelcut 2 is unicoloured, Steelcut Trio 2 colours are created by using three different toned yarns giving different shades.

The colour scale of both fabrics create harmonies by combining vivid floral hues, earthy tones, neutral skin tones and fresh colours.

Composition: 90% New Wool, 10% Nylon

Yarn type	Staple, worsted
Width	140 cm

Synergy**Synergy**

2+2 = 75. Where the total is more than the sum of the parts. Say hello to Synergy, a soft handle wool blend fabric, featuring exquisite fibre dyed shades and sumptuous piece dyed solids. It all comes together to provide our largest colour offering of 75 intelligent shades.

We have partnered with Just A Drop, the international water aid charity, and for every metre of fabric we sell, we will make a donation to a specific project around the world, helping to provide clean and safe water to those in need.

Composition: 95% Virgin Wool, 5% Polyamide. Non metallic dyestuffs

Width	140 cm minimum

X2

X2 provides stretch, flammability and abrasion performance in an unobtrusive background grey melange effect. The subtle dark tones create texture and dimension within a playful colour palette of brights through to subtle neutrals. The mottled appearance is also a practical solution to aid appearance retention.

X2 is our first 100% recycled fabric to include closed loop content. 25% of the raw material is derived from our own waste streams, specifically polyester selvages and yarn remnants.

X2 is certified to the EU Ecolabel.

Composition: 100% Recycled Flame Retardant Polyester. Non metallic dyestuffs

Environmental	Made from 100% recycled polyester. Certified to the EU Ecolabel.
