## RESULT CHAIR & PYRAMID COLLECTION

Originally designed by Friso Kramer and Wim Rietveld for Ahrend in the 1950s, the Result Chair and Pyramid Collection are being relaunched by HAY together with Ahrend.

This collaboration has a unique potential, making these Dutch design icons available again, not only to corporate clients whom we are used to serve, but also to the domestic market around the world.

Created to be adaptable, light and strong, the Result Chair and Pyramid Collection are two examples of products that utilise the cutout sheet steel construction method of manufacture. The cutout steel bases are in black or light grey powder coating, with either an oak or smoked oak seat, back or tabletop. The Pyramid Collection features a number of different configurations of the design, including tables, a desk and a bench all of which are visually linked together by the elegant base frame.
